SUMMER AND FALL VARIETIES

YELLOW TRANSPARENT. Earliest and best; white, tender, juicy, sprightly sub-acid; grows upright; bears when young, making good filler.

LODI. A Transparent type apple of much larger size and more firm. It ripens a few days later than Yellow Transparent, but is large and can be picked with Transparent. *(Yellow Harvest)*

EARLY HARVEST. Medium; pale yellow; tender, juicy, good quality.

SUMMER RAMBO. Very large; greenish red, striped; tender, juicy; tree strong grower.

EARLY McINTOSH. A McIntosh hybrid being almost solid red. Flesh white, crisp and juicy, with the same high quality as McIntosh.

GRAVENSTEIN. Large striped, fine quality, one of the best fall sorts.

WEALTHY. Almost solid red. Flesh white, tender, crisp, juicy, fine grained. *(McIntosh Red)*

McINTOSH. Medium size, nearly covered with red, flesh yellowish, tender, juicy, sub-acid.

RED McINTOSH. Similar to McIntosh, excepting that it produces fruit of higher color.

SMOKEHOUSE. Fruit medium to large. Color yellow or greenish mottled with red.

WINTER VARIETIES

(Grimes Golden Pippin) (Grimes)
GRIMES GOLDEN. Large, skin golden yellow; flesh tender and crisp. A very good apple.

STAYMAN WINESAP. A profitable sort to grow for market, and for home use. Large in size, fine appearance, good quality, juicy and crisp, color red.

DOUBLE RED STAYMAN. Similar to Stayman Winesap, excepting that it colors earlier and produces fruit of higher color.

DELICIOUS. Red, fine grained; juicy, quality very good. A good apple for either home use or market.

DOUBLE RED DELICIOUS. A very fine colored, solid red strain of Delicious resembling its parent in all characteristics except color.

Golden **YELLOW DELICIOUS.** A good variety, resembling the Red Delicious somewhat in shape. Ripens about the same time as Grimes Golden.

ROME BEAUTY. Large; roundish, with bright red on a pale yellow ground. A profitable variety.

RED ROME. A solid red Rome Beauty sport. It is typical of Rome Beauty in every way except that the fruit averages smaller.

APPLES (Cont'd)

CORTLAND. A cross between McIntosh and Ben Davis, inheriting the good qualities of both parents. It is a beautiful red, larger than McIntosh, and matures a month later; hangs well to the tree.

PARADISE WINTER SWEET. Large; creamy white, rosy cheeked. One of the best sweet winter varieties.

MELROSE. A Jonathan-Delicious cross. The fruits resembling Jonathan except they are not quite so highly colored and are somewhat more oblate. It is a late keeping high quality dessert apple.

BALDWIN. Large, bright red, crisp, juicy, rich.

YORK IMPERIAL. A medium to large winter apple with yellow skin shaded red; firm, juicy, sub-acid. An excellent canning and shipping apple.

DOUBLE RED YORK. This is a sport of the regular York Imperial. It colors earlier and produces higher color than the regular York Imperial.

JONATHAN. Most beautiful of all apples. Fruit medium to large, roundish, yellow nearly covered with red.

DOUBLE RED JONATHAN. Similar to Jonathan, excepting that it produces fruit of higher color.

CRAB APPLES

HYSLOP. Large; deep crimson; one of the most beautiful; very popular.

TRANSCENDENT. For many years the most popular crab apple. Fruit about an inch in diameter, yellow, with red cheek.

Varieties listed according to season of ripening as near as possible.

SUNRISE. Yellow-fleshed peach of medium size, ripening ten days to two weeks before Jerseyland. It is classified as a semi-clingstone, but is almost a freestone when ripe.

SUNHAVEN. A new variety. Fruit resembles Red Haven in color but ripens about ten days earlier. Fruit is medium-large in size, nearly round and uniform in shape. Tree is hardy, vigorous and productive.

RARITAN ROSE. This variety is a very early, white, freestone peach of good quality ripening 3 to 5 days before Golden Jubilee.

JERSEYLAND. A large, firm, yellow fleshed peach ripening a few days before Golden Jubilee. The tree is hardy and comes into bearing early.

RED HAVEN. A cross between Hale Haven and Kalhaven. Tree is vigorous and very bud hardy, also bears young. Fruit is medium sized and colors to a brilliant red.

(Jubilee)

➤ **GOLDEN JUBILEE.** Yellow, freestone, ripening four or five days ahead of Carman. Very attractive peach of good size and fair quality. It withstands shipment better than most early varieties.

➤ **TRIOGEM.** Highly colored red, flesh yellow, freestone. Fruit buds are very hardy. Ripens a few days after Golden Jubilee.

➤ **SUN HIGH.** Large smooth bright red. The flesh is yellow, freestone. Growers claim this to be one of the best of the New Jersey introductions.

➤ **SOUTH HAVEN.** Yellow, freestone, deep yellow with a red cheek, delicious flavor. Ripens about fifteen days ahead of Elberta. Tree very hardy.

➤ **HALE HAVEN.** A large beautifully colored, yellow fleshed peach, ripening about ten days before Elberta. The tree is hardy and fruit is of the highest quality.

➤ **REDROSE.** A firm, attractive white fleshed freestone peach of high quality ripening with Hale Haven and Golden East. Tree vigorous, productive and hardy.

➤ **CHAMPION.** A large, handsome, early variety. Creamy white with red cheek; sweet, rich and juicy; hardy and productive.

(Georgia Belle)
➤ **BELLE OF GEORGIA.** Very large peach with red cheek, flesh white and firm, of excellent flavor.

➤ **EARLY ELBERTA.** This is one of the finest of all the Elberta family. Ripens from one week to ten days earlier than the Elberta.

➤ **BLAKE.** A large firm, bright, attractive yellow-fleshed freestone, ripening about a week before Elberta. Quality is equal to J. H. Hale. It is resistant to bacterial spot and is an excellent freezing and canning variety.

➤ **ELBERTA.** A valuable large peach, of good quality; fruit large, yellow with red cheek; flesh yellow; freestone. The leading market variety.

➤ **REDSKIN.** A cross between J. H. Hale and Elberta. Tree is vigorous and productive. Fruit is large, yellow and freestone with deep pink blush. Ripens with or slightly after Elberta.

➤ **J. H. HALE.** One of the best sorts for market or garden. Fruit is very large, round, quality excellent. Skin yellow, finely colored, flesh yellow. A very good one.

➤ **RIO-OSO-GEM.** A Hale type peach ripening about 15 days after Elberta. Fruit large in size with bright red color. Flesh is firm with excellent flavor.

➤ **SHIPPER'S LATE RED.** A large highly colored peach. Very hardy, yellow fleshed and freestone, of good quality. Ripens just after Hale and Elberta.

➤ **WHITE HALE.** Large white peach, very attractive. Similar to J. H. Hale. This is a very promising variety.

➤ **AFTERGLO.** A large high colored yellow freestone peach ripening three to five days after Elberta. Red coloring carries through the flesh, it being especially red about the pit. A variety that appears hardy and worthy of trial.

SWEET CHERRIES

(Budded on Mazzard Root)

Our cherry trees are grown on soil adapted for growing good thrifty trees.

Sweet cherry are all budded on Mazzard seedlings, which has been proven the best understock for the sweet cherry.

We take special care to have our varieties true to name and during the growing season we endeavor to keep our trees in the best condition by spraying with a fungicide spray.

American Holly

Perhaps it was three hundred years ago when the holly tree pictured above began to grow. For approximately three centuries it has grown. This tree, located near York Furnace, in the southern part of York County, has become the largest known specimen of its kind in this latitude. It is estimated to be 75 feet high, with a circumference at the base of about 65 inches and with a two-foot diameter. In 1935, through the efforts of the Conservation Society of York County, a suitable marker was placed at the base of the tree.

INSTRUCTIONS TO PURCHASERS

Orders. Orders should be sent in just as soon as possible after receiving catalog. By placing orders early you are more certain of getting the varieties wanted, as late in the season we are often sold out of some varieties. If ordered early we can reserve the stock until proper time for planting.

Shipping. We have adequate shipping facilities and can ship in any direction with the probability of prompt arrival at destination. All shipments travel at the cost and risk of the purchaser.

Truck Deliveries. Truckload orders will be delivered free, reasonable distances; long hauls and smaller orders delivered by special arrangement.

Guarantee and Claim. All stock is guaranteed to be true-to-name, dug properly, and in good condition when shipped. Any tree or plant which is untrue to name will be promptly replaced. In case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the nursery products.—As we have no control over its care and usage after it leaves our hands, we cannot guarantee it to live and grow or to give specific results.—We insist that all claims for damaged or unsatisfactory stock be made promptly.

Terms Cash, except when expressly agreed otherwise.

Substitution. We reserve the right in case we are out of a variety, to substitute another of equal merit when it can be done—unless the order is plainly marked NO SUBSTITUTION. In this case we will fill the order as completely as possible and refund the balance of remittance.

Prices. The prices quoted in this catalog are F. O. B. our Nurseries except where otherwise noted. They are as low as was consistent at the time of printing, considering wages and other costs. However, they are subject to change without notice.

Please add 4% Penna. sales tax to amount of your order.

STATEMENT OF INSPECTION FOR TRUENESS-TO-NAME

Amherst, Mass.

To Whom It May Concern:

July 23, 1959

All salable apple, pear, plum, sweet cherry and two year sour cherry varieties propagated and now growing at Enterprise Nurseries, Wrightsville, Pennsylvania, have been examined by the Massachusetts Trueness-to-name Inspection Service. To the best of our knowledge, these trees are true-to-name as they now stand in the nursery row.
